

# SNAKES

Superfast,

Neurotoxic venom,

Anti-venom,

Knowledge is key,

Enigmatic snakes are found,

Slithering serpents.

I did snakes because they  
are my favourite animals  
and that there are so many  
different types of snake.

Grace Blewitt, 5S, FJS

# Ava, year 5 at FJS

## Imagine:

Imagine that <sup>the</sup> sky was green,  
for how funny would that have been,  
but what then would we do,  
for we all know the sky is blue.

Now lets imagine the mud was pink  
It would turn like that in a blink,  
It would look like like a clown,  
for we all know mud is brown.

My vote goes on staying the same,  
or life would be some kind of game,  
~~it's fine as it is,~~ Just look around and you will see  
the world created for you and me.

By Ava Crebain.

# Penelope, Year 5 Longcot School

- *Our Amazing World by Penelope*

- *This world is amazing can't you see*
- *This world is the home for you and me*
- *This world has stars and earth and sea*
- *This world has animals stubby and small and also big and tall*
- *This world has things to eat like carrots and fish and don't forget treats*
- *There are humans and houses and objects as small as mice*
- *There are flowers and plants, places and parks to go to when the sky is not dark*
- *There are friends and family that you can trust*
- *So, this world is amazing, but can't you see*
- *That this world wouldn't be so amazing without people like me*

Valena, year 5  
Buckland

---

There is no drawing,  
but she has written her  
poem on a canvas that  
she had painted  
before.

---

Imagine

Imagine a rainbow of joy,  
Or a flower bed with rosy roses,  
Imagine life as a toy,  
While day just opens and closes.

Imagine a colourful sunset,  
Or the winter dive down in the sea,  
Imagine when pain becomes upset,  
'Cause you have a smile with glee.

Imagine the view of a mountain,  
Or the buildings you see in your town,  
Imagine the fish in the fountain,  
In their lively, colourful gown.
